Incident summary:

On November 21, 2024, I received notification from Detective Travis Beville he completed case report ASO24OFF008963, an investigation into the in-custody death of Inmate Stewart Robinson, at the Department of the Jail. I reviewed Detective Beville's supplement to the report and noted the summary of Detention Officer Philip Carr's interview read, "I asked him when his last check of Robinson would have been and he stated that he was checked on every 15 minutes and the last time he saw him he was sitting near the cell door chewing them out about him being in the infirmary." Department of the Jail video from the Male Infirmary recorded during the incident showed no officer physically checked each cell in the housing unit every fifteen minutes during that time.

Due to the discrepancy, Criminal Investigations Division Lieutenant David Butscher was contacted on November 25, 2024 and initiated an investigation to determine if Detention Officer Carr provided false information to law enforcement during an investigation. Sergeant Michael Cooper conducted an investigation into the incident, which is reflected in report ASO24OFF010301. After he reviewed evidence and spoke with Detention Officer Carr, Sergeant Cooper documented the following: "Based on the above investigation, I concluded that Carr's statement was accurate and truthful. There is no probable cause that exist in this case to warrant criminal charges." Based on the findings of the criminal investigation, this Inspector concluded the allegation of Criminal Conducted was Unfounded.
